THE BRIG IRWIN LEAVES FOR

way wharf.The steamer Kauhau is expected from Ma-  
kauai tomorrow.The brig W. G. Irwin left this morning for  
the refinery with 354 tons of sugar and rice on  
board, and three young lady passengers.The cargo of 2400 bags of Hutchinson plantation  
sugar from the steamer W. G. Hall is  
being unloaded into the Oceanic warehouse.The steamer J. A. Cummins did not get away  
today, but Chief Engineer Cant expects to  
have her alright for tomorrow morning. She is  
berthed at Oceanic wharf.The schooner Ka Mol arrived from Kohala  
this morning with 2500 bags of sugar, of which  
the number one quality is being unloaded into  
the bark Rithet, and the number two into the  
Oceanic warehouse.The American schooner Volant, Sherratt  
master, arrived at Honolulu, Hawaii, last  
Thursday, July 27th, with a deck load of lum-  
ber from Puget Sound for the Hutchinson  
plantation, and a cargo of merchandise for  
Hilo, for whom she left on Saturday.The clipper bark Velocity, Martin master,  
docked at Nuuanu street wharf at 10 o'clock  
this morning, sixty-one days from Hongkong.  
Old Captain Martin, though past seventy, is  
 hale and hearty as ever, and says he had a  
 pleasant voyage all the way from the Orient.  
The first mate Murphy who has been with  
the vessel some years has quit. The Velocity  
brings Chinese merchandise and is consigned  
to the Wing Mow Chang Company.On the subject of Japanese shipping an ex-  
change says the enormous development in  
ship-building of which America gives promise  
adds interest to a paper which has been pub-  
lished in England on "Japanese Shipping."  
The paper contains many points which can  
be profitably considered by American ship-  
builders. In a single generation the Japan-  
ese have in many cases dispensed with their  
European professors and teachers and are  
going ahead themselves. They build and  
equip their own warships and engines, and  
there are signs that they mean to become a  
ship-building nation. They are building al-  
most all their own vessels. In 1892 there  
were fifty-three ship-building yards in Japan,  
turning out vessels for trading purposes on  
modern lines. It is said that a vessel of 4000  
tons can be built in Japan for about \$5 a ton  
less than in Europe.
